Wheat bulls were afraid to tackle the market yesterday, with all the odds against them. Foreign conditions were not favorable to further advances, the most bearish card being heavy shipments of wheat from Russia and the Danube and an increase in the visible supply and stocks in stere in England. Domestic conditions were equally bearish. The congestion in the Northwest was somewhat relieved by an increase in the supply of cars, and wheat was moving freely to Minneapolis and Duluth, at both of which points the stocks in store were larger than last week. Winter wheat came in larger quantities, the receipts both locally and at primary points being much larger

There were many bull points in the corn news, but they were not effective because of a failing off in the cash and export demand and a general disposition on the part of speculators to let go their holdings. Outsiders were the heaviest sellers.

Primary receipts were small and the visible supply decreased last week. The report of the Missouri State Board of Agriculture showed a yield of only 9 bushels to the acre, but it was believed that this news had been discounted by private advices.

Dec, wheat opened 1-18c off and closed %61/2c off. May opened 1/81/4c up and closed Dec, corn opened 1-16c up and closed 146% off. May opened likelic up and closed

May make opened be up and closed be off.

In the produce market apples were in light receipt and more firmly held. Polatoes were higher.

Trading on the local Stock Exchange was not up to the average of last week, but there was a good demand for banking shares. Yesterday's bank electings were 29.711.631, balances 31.86, pt.

Local discount rates for call and time loans were steady between 5 and 6 per cent, The local market for spot cotion was steady and unchanged.

## **GRAINS WORKED LOWER** ON SPECULATIVE SELLING.

### WEAKNESS OF WHEAT AF FECTED CORN.

### European Buyers Were Out of the Market for American Grain.

Heavier shipments to the Northwestern nilling centers and to primary points were the principal factors in the decline of wheat in the local market yesterday. Foreign markets were lower all around and there was a falling off in the export inquiry for both wheat and flour! Added to these hearsh conditions there was considerable specish conditions there was considerable spec-plative selling. The bulk of the trading was in the May option, which opened higher than Saturday's close, but fell back under pressure of liquidation after fairly good early buying. Wheat on ocean passage showed an increase for the week of 1,520,00 bu, and Liverpool wheat stocks increased 144,00 bu. Shipments of wheat from Russia and the Danube were beavy, amounting to 14,00 bu. Salpments of wheat from Russia and the Danube were heavy, amounting to 2,624,000 bu. There was an increase of 255,000 bu. In the English visible supply. The increase in the United States visible supply was 3,718,000 bu.

Chicago, Nov. 18.-Bearish statistics and general bearbh conditions prevailed in all grains to-day, and Dec. wheat closed \$4915c lower, Dec. corn 1449 je down and Dec. oats 149%c lower. Provisions closed Playine to 20c higher,

Wheat ruled weak throughout the session Early cable advices were discouraging, though they were based it was thought, on the decline here Saturday. Receipts, both primary and Northwastern, were heavy, and he week-end statistics of shipments, mount on passage and visible supply were onsiderably increased and hearish. Heavy amount on passage and visible supply were considerably increased and hearish. Heavy liquidation ensued at once, based principally on the 3.718,000 bu, increase in the world's visibly supply. Dec., which opened at shade to 'er'ac lower, fluctuated narrowly for a time, fighting the decline, but after a few boying oracies were filled Dec. sagged rapidly to Plac. The weakness in the coarser grains had a depressing influence, but at the low prices shorts covered freely and sent. Dec. up slightly. The close was weak, 'eff 'ge lower, at 71'se. Considering the volume of bearish ammunition fired at this plt today, traders feel that it held well. Local receipts were 63 cars, one of contract grade; Minneapolis and Duitth reported 1.42 cars, making a total for the points of 1.455 cars, against 1.337 last week and 261 a year age. Primary receipts were 1.635,000 bm, against 1.312,000 bm. last year, Scaboard clearances in wheat and flour equaled 384,000 bu. World's shipments were 8.572,000 bm, for the week, compared with 9.82,000 bushels last week and 7.774,600 bushels that corresponding week a year ago. The increase of breadstuffs on passage was 1.20,000 bu.

Liquidation was the feature of the corn

stuffs on passage was 1,20,000 bu.

Liquidation was the feature of the corn pit. Commission houses generally had orders to sell and the demand was slack. The cash situation was not so active as it was last week, and the bull side of the market seemed to have lost its pupularity. Country offerings were small, but it was reported that more new corn was coming forward, particularly from fown. On the soft spots bulls did some buying, but on the whole the market ruled weak. Dec. which opened lystic lower on poor cables, sold between 5sc and 6c, and closed weak, tip 5c down at 39,575.5c. Receives were 112 cars. 16. 106. 2.60 CALVES.

HOGS—A small supply of hogs arrived and they die not average very well in quinty, Good hogs with weight were scarce, but the representation in the medium-neight class was good. The market opened active on strong, but no higher than the close of last week on the good hogs of all weights, but the common and fair grades showed no improvement, and inferior pigs sell very slow. More good bureber and packing hogs were wanted, as buyers were unable to finithey orders for good hogs welching 200 lbs. and over The late market showed no material change, and the close was on a firm basis and the clearance good.

REPORT.

Good Investment Demand for Local Bank and Trust Com-

Local stocks and bonds were active yes terday, but the volume of trading was smaller than at the close of last week. Bank and trust company stocks were most

orices. Missouri Trust was the center of another buil movement, which carried the stock up to fist in the open market. The opening sale at the morning session was at \$126. Every purchase was followed by a higher had and sales were made at the half points and \$11.50 was reached. Sellers were acking that price when the gavel fell. Tractions were firm on the showing of the company's report for October, which indicated an increase of \$5.107 in earnings, compared with the same month last year. Still the demand was not beavy and on attrances were recorded. Transit sold at \$9.15 and \$21. United Railways preferred at \$8.75 and United Railways is at \$86. In the banking lest the built cards were Continental National, hank of Commerce, American Exchange and Mechanics' National. State National was bid up sharply, but there were no sales. 1. 669. 2.59 2 BULLS.

Trading at the atternoon session was fair for a Monday. The opening sale of Missouri Trust was below the high point reached in the morning, but there was plently of support forthcoming and the stock rapidly advanced from life to highest figure. Lincoln Trust was bought for cash or a scale up from \$281 to \$285. Continental National was sold at \$29 for a lot of 25 shares, Grantee R.-Metallic was weak, with sales at \$3.6 and \$3.675. The only transactions in the street railway list were sales of 29 shares of United Railways preferred at \$85.76.

# MUNYON'S

Meanly everybody seems to be taking Prof. Men-yon's Cold Cure whenever a cold appears. It relieves the head, nose, throat and lungs so quickly that a cold need no longer be a forerunner of grippe, diphtheria or pseumonia. A vial of the Cold Cure is like a life insurance policy. Every one of his remedies is as sure. Mostly 25, vial. Guide to Health free. Munyon, New York and Philade-lohia. MUNION'S INHALER CURES CATARRH.
